RE: Kings First Stop Auto Repair and Tom Randall Distributing Company Voluntary Cleanup Program Site (VCP #C089) located at 127, 137 & 143 South Main Street, Layton, Davis County, Utah. (Tax ID # 11-061-0029, 11-061-0157, and 11-061-0158).

CERTIFICATE OF COMPLETION

1. Compliance with Terms of Voluntary Cleanup Program

The Executive Director of the Utah Department of Environmental Quality (“DEQ”), through her undersigned designee below, has determined that North Utah Holdings, LLC, and Layton City, hereinafter referred to as “Applicant,” have completed a DEQ supervised voluntary cleanup of the real property described in Attachment A (“Property or “Site”), in accordance with sections 19-8-108 and 19-8-110 of the Utah Code Annotated and the Voluntary Cleanup Agreement entered into on October 25, 2016 and amended on March 28, 2019. The Applicant is granted this Certificate of Completion (“COC”) pursuant to section 19-8-111, subject to the conditions set forth in Section 3 below.

2. Acknowledgment of Protection from Liability

This COC acknowledges protection from liability provided by section 19-8-113 of the Utah Code Ann. to an Applicant who is not responsible for the contamination under the provisions listed in subsection 19-8-113(1)(b) at the time the Applicant applies to enter into a Voluntary Cleanup Agreement, and to future owners who acquire the Property covered by this COC, and to lenders who make loans secured by the Property covered by the COC.

As set forth in section 19-8-113, this release of liability is not available to an owner or lender who was originally responsible for contamination, or to an owner or lender who changes the land use from the use specified in Section 3 of the COC, if the changed use or uses may reasonably be expected to result in increased risks to human health or the environment, or to an owner or lender who causes further contamination on the Property. Also, there is no release from liability if the COC is obtained by fraud, misrepresentation, or the knowing failure to disclose material information.

Finally, protection from liability is limited to contamination identified in the documents related to the investigation and cleanup of the Property.

3. Specified Land Use for Certificate of Completion

This COC applies only to activities conducted under the Voluntary Cleanup Program (VCP) and does not apply to activities under the Underground Storage Tank Act.

The following reported releases are specifically excluded from the COC: King's First Stop Auto Repair, Facility No. 3000161, Releases: HNL, JTB, KQA, KYY, and LUW; and Tom Randall Distributing, Facility No. 3000154, Releases: KYZ and LWB.

Under the VCP, the future use of the Property can be residential with no environmental restrictions except groundwater will not be accessed via wells, pits or sump for drinking water, bathing and/or irrigation purposes. However, the overall future use of the Property shall comply with restrictions required by the management of the aforementioned Releases.

Residential land use:

The residential exposure scenario as described in the Risk Assessment Guidance for Superfund, Volume I, Human Health Evaluation, Parts A and B shall be applicable. The residential exposure scenario is defined as exposure of adults to incidental inhalation, ingestion, and dermal contact to hazardous constituents for a duration of 30 years at a frequency of 350 days a year.

4. Unavailability of Release of Liability

Use of the Property that is not consistent with Section 3 including failure to comply with provisions of this COC shall constitute a change in land use expected to result in increased risks to human health and the environment making the release of liability in Section 2 above unavailable.

5. Amended Certificate of Completion

There is no expectation that this COC will be amended so long as contaminated soils, above levels protective for unrestricted land use, remain on the Site from the work conducted under the Underground Storage Tank Program.

6. Availability of Records

All documents discussed in this COC are on file and may be reviewed at the DEQ/Division of Environmental Response and Remediation ("DERR") office located at 195 North 1950 West, Salt Lake City, Utah. The documents can also be viewed online using the DEQ EZ-Search utility at <http://eqedocs.utah.gov/>.

7. Final Signature for Certificate of Completion for Kings First Stop Auto Repair and Tom Randall Distributing Company Voluntary Cleanup Program Site
